

CRUD

1- CRUD OPERSTIONS :

Here are short sentences that represent each CRUD operation:

1- Creating a new record:

→ "Create a new user with name 'John' and email 'john@example.com'."

2- Reading/selecting records:

→ "Retrieve all products from the database."

3- Updating a record:

→ "Update the quantity of product with ID 123 to 50."

4- Deleting a record:

→ "Delete the customer with ID 456 from the database."

These sentences provide a high-level understanding of each CRUD operation without specifying the programming language or framework used.
